

DEEBOT T30e OMNI

ALL-NEW ROBOTIC VACUUM CLEANER WITH
UPGRADED ZEROTANGLE 3.0

ZeroTangle 3.0 Anti-Tangle Technology

Free of hair-entanglement for both brushes:

Featuring an upgraded ARClean Anti-Tangle Side Brush and advanced Cyclone-Directed Anti-Tangle Main Brush, users can really enjoy an efficient suction, easy maintenance, and immaculate floors.

The golden spiral design of side brush, combined with a single-prong dual-cluster and inward-curved bristles, effectively prevents hair tangling while enhancing the side brush's cleaning performance. Additionally, the iconic Triple-V anti-tangle structure actively untangle the hair from the main brush to keep the collection of hair quick and smooth.

Unrivalled Cleaning Performance

Strategic cleaning for next-level vacuuming and mopping:

Combined with 20,000Pa suction power and strong airflow, the T30e OMNI deep cleans carpets with ease, aided by Carpet Cleaning Strategy and Auto-lift Mopping. It effectively tackles carpet cleaning challenges, especially for families with multiple carpets. ARClean Side Brush ensures thorough edge cleaning, while OZMO Turbo 2.0 elevates mopping performance for spotless results on various surfaces.

OMNI Station with Automatic Self-Cleaning

Compact but powerful station to further free up your hands:

The DEEBOT T30e OMNI features an all-in-one OMNI Station that offers enhanced functionality for a truly hands-free experience. Its core capabilities include automatic self-cleaning, which eliminates the need for manual maintenance and significantly reduces user effort, along with a comprehensive range of automated maintenance features. These include Auto-Empty, Hot Air Drying at 45°C, Auto Small-Tank Refill, Off-Peak Charging, and a 4L water tank. The OMNI station is designed to fully automate the cleaning process, allowing users to enjoy a more convenient and efficient cleaning routine without any manual involvement.

Intelligent Path Planning

Finds Its Path, Avoids Obstacles, Worry-Free:

The DEEBOT T30e OMNI enhances cleaning efficiency and navigation through advanced technology. TrueMapping 2.0 enables the robot to generate precise maps of the environment. With features like Quick Mapping, Path Planning, Multi-level Maps and Safe on stairs, it improves obstacle avoidance and optimize cleaning paths, ensuring comprehensive coverage of areas. Additionally, TrueDetect 3D enhances surface recognition capabilities using structured light technology, ensuring the protection of home surroundings while enhancing the actual cleaning coverage on the floor.
