XILENCE

Performance C Series

Intel CPU Cooler I200

The Xilence I200 combines all the characteristics of a modern CPU cooler for home and office use. Thanks to its quiet 92mm fan, the precision-manufactured heatsink is quietly and reliably supplied with cold air. The fan speed of 2200 RPM guarantees an ideal compromise between high airflow and low-noise operation. Furthermore, it distinguishes itself due to a safe and solid mounting by means of a backplate.
