

Performance C Series

Multi Socket CPU Cooler M404PRO.ARGB / M404PRO.W.ARGB

The Xilence Performance C M404PRO.ARGB is the illuminated version of the M404PRO and is aimed at users who want to combine high cooling performance with modern ARGB optics. With a TDP of up to 200 watts, the tower CPU cooler is ideal for current gaming, office, and multimedia systems and offers an attractive price-performance ratio.

Four copper direct-touch heat pipes ensure efficient heat transfer to the aluminum heat sink. The 120 mm PWM fan operates at 800–1800 rpm, delivering high airflow while remaining pleasantly quiet, even under load.

Visually, the cooler makes a clear statement with its ARGB fan and transparent fan blades. The lighting can be integrated into common motherboard setups via a 3-pin ARGB connector. Thanks to its compact height of only 142.4 mm, wide socket compatibility, and easy installation, the M404PRO.ARGB is extremely versatile.

Product Features

- 200 W TDP cooling capacity: Reliable performance for modern Intel and AMD CPUs
- Direct-touch technology: Four copper heat pipes for efficient heat dissipation
- Quiet PWM fan: 120 mm, 800–1800 rpm for balanced cooling
- ARGB lighting: Modern look with 3-pin ARGB connector
- Compact & compatible: Only 142.4 mm height, suitable for many cases
- Available in black and white

Technical Data

Sockets	AMD: AM5/AM4 Intel: 1954/1851/1700/1200/115X
CPU max. Watt	200W
Fan Size	120mm
Fan Speed	800-1800RPM±10%
Air Flow	61.5CFM
Fan Control	✓
LED Light Cable	Female ARGB 3pin (12V AURA)
Noise Level	14.2-25.6dB(A)
Thermal Paste	✓
Dimensions (H/W/D)	120 x 73 x 142.4mm
Weight	422 g

Logistical Data

	Black	White
Manufacturer Number	XC149	XC249
Item Number	M404PRO.ARGB	M404PRO.W.ARGB
