- SD and microSD card slots enable data transfer between the card in devices such as cameras and drones, and the connected system
- Up to PD 100W power pass-through to charge your laptop and power the connected peripherals when used with a USB-C power adapter
- The Gigabit Ethernet provides high-speed, reliable wired connectivity

User Benefits

Integrated Connectivity

The all-in-one solution offers a variety of connectivity for work and leisure, wherever you are

Improved Work Efficiency

The extensive connectivity options and extreme high speeds offered by USB 3.1 make the hub indispensable for gamers and content creators

Performance-driven Display

HDMI 2.0 supports 4k resolution at a 60Hz refresh rate to offer lifelike images for superb display quality

Convenient Data Access

The SD and microSD card slots offer a faster and safer way of data exchange and backup than transfer through cables

Keep Your Desk Organized

The all-in-one hub can be connected at the front and rear to accommodate any design of PC or laptops to keep your desk uncluttered

Pass-through Charging

The PD port supports rapid charging with a capacity of up to 100W, ensuring the connected devices always stay powered

Instant Network

Laptops without an Ethernet port can gain high-speed connectivity with the GbE port, ensuring instant access to fast, reliable networking for your applications

Best On-the-Go Partner

Simplify your workspace while enhancing communication with superior connection speed and transmission quality, whether you're in the office, at home, or on the go

1. Speed may vary due to the hardware, software and usage of both ends.

2. Resolutions based on DP 1.4 of the input signal of the connected device. If the input signal of the connected device is compatible with DP 1.2 graphics on Windows, only 4K (3840 x2160@30Hz) can be supported as the max resolution for HDMI 1 & 2 in single display configuration; and 1920*1080 @ 60Hz in dual display configuration. If the connected device has DP 1.2 graphics on macOS, 4K (3840 x2160@30H) can be supported in both single display and dual display configuration.
