Designed for Professionals

2160p

4K

- If you want to connect a graphic card with DisplayPort Female to a monitor by using a DVI cable, you need this DisplayPort to DVI adapter
- Connectors: DisplayPort Male, DVI Female
- Max. resolution: 3840 x 2160 (@30Hz)
- Remark: The DisplayPort-DVI adapter is only working in one direction: the DisplayPort plug has to be connected to the source device (e.g. graphic card)

What are the benefits of using Active adapters and converters?

Active products can have a huge advantage when working with long cable runs and video conversion applications. In terms of video converters, active units generally have hardware inside to improve your image.

ROLINE GOLD - Top quality without any compromises!

Cables in ROLINE GOLD quality come with high quality shielding and gilded contacts for contact safety even at high plug-in cycles. The plugs are gold coated to enhance their contact durability. Nylon-reinforced outer material in golden/black provides a better stability and gives the cable a stunning look.

With attractive blister packaging for retailers or resellers.

Technical specifications
