ROLINE toner cartridge: Controlled compatibility, graphics capability, print density and exact fill quantity

ROLINE compatible with HEWLETT PACKARD No. 131A Color LaserJet Pro200 M251n, cyan approx. 1,800 pages

ROLINE quality speaks for itself!

No ROLINE toner cartridge leaves our production without a final check. One by one every item must proof that it complies all demands on quality: Guaranteed compatibility, graphical competence, printing density and exact volume. Thereby a cartridge is checked with up to seven different printer models. At the same time steady endurance tests take place so that the serial production complies with the demands on quality of the Quality Management. We only release a new type of cartridge if at least 200.000 to 300.000 pages were printed without any complaints - and only what was tested by us and judged good, will be saled.

• The ROLINE Toner range offers you high quality to low prices

• 100% compatibility to the printer models named below

• Excellent cost-effectiveness

• 100% manufacturer final check of every toner cartridge

• With verified yield

• Produced by one of the leading European manufacturers (DIN ISO EN 9001 and DIN ISO EN 14001 certified)
