

# ROLINE Gigabit Converter, RJ-45 to Mini GBIC

Product No.	21.13.1067
Manufacturer	ROLINE
Manufacturer No.	21.13.1067
EAN (single piece)	7611990195275

For adaptation of different cabling within a LAN FO converters can be used to obtain a functional network. Whether to implement fiber optic on a classic twisted pair network with a mini-GBIC or for the implementation of fiber optic to another fiber optic network with two mini-GBICs.

The ROLINE Gigabit converter offers both possibilities.

The ROLINE Gigabit converter is a Gigabit Ethernet TP port to fiber or a fiber port to a second fiber port. The fiber optic connectors can be freely selected by means of mini-GBIC Module

- Compliant with IEEE 802.3ab 1000BaseT and IEEE 802.3z 1000BaseSX/LX Gigabit Ethernet Standards
- Connectors: 1x 10/100/1000BaseT Gigabit Ethernet TP port, 2x Mini-GBIC slots on the fiber optic side
- Power is supplied via an external power supply (included)
- TP port supports Full-Duplex, Auto-MDI/MDI-X, Auto-Negotiation
- Each SFP slot supports both singlemode and multimode or mixed
- Link Loss Forwarding (LLF) / Link Fault Pass Through (LFP)
- Dimensions: 102 × 75 × 23 mm
- Contents:

Technical specifications	
Manufacturer	ROLINE
Product group	Network converters
Product type	Network Media Converters

Colour	black
Scope of delivery	Konverter, Kurzanleitung, Netzteil
RJ-45 Port (Mbps/s)	1000
Fibre Ports (Mbps)	1000
Quantity of RJ45 ports	1
Technical particularity	Fibre optic connection is realized by MiniGBIC Module
Height	102 mm
Width	75 mm
Depth	23 mm
Weight	210.1 g
Height of packaging (single piece)	60 mm
Width of packaging (single piece)	160 mm
Depth of packaging (single piece)	210 mm
Package weight (single piece)	0.48 kg
