ROLINE Cat. 6A Keystone for use in a 10 Gigabit network, using a bandwidth of 500 MHz, unshielded, with a very small form factor!

- The cables are connected to the Keystone without tools - the cable cores are simply placed in the guides, the module is closed and pressed together - the connection is complete
- Keystone with printed color coding in accordance with EIA / TIA 568
- The ROLINE Cat.6/Class E 19" keystones meet the transmission properties of a Cat.6A/Class EA link
- Unshielded
- Slim and short
- Color: white
- The Keystone modules can be clipped into a 19" module support (26.11.0357 in black or 26.11.0356 in light gray) with an earthing connection. Or they can be used together with a module holder 25.16.8579 to form a junction box.
