Some of the advantages of the new ATA series (SATA technology) are conditional on the use of relatively thin and flexible cables, which simplifies the use in the computer substantially and also brings a clear improvement to the air flow inside the computer housing.

• Connect your high-speed Serial ATA device (e. g. HDD) to a Serial ATA controller
• Support data transfer rates of up to 6.0 Gbit/s
• Compatible with SATA 1.5 Gbit/s (SATA I) and 3.0 Gbit/s (SATA II)
• 4-pin cable with ground wires
• Connectors: 2x internal 7-pin SATA with latch on both connectors
